

ROSSMAN
FARMS GENETICS

Feb 19, 2026 | Oronoco, MN

Selling Registered Angus & *Elite* SimAngus Bulls *Plus* Bred Heifers

Dear Cattlemen & Friends,

We are truly grateful to welcome you to our February 19, 2026 Bull Sale and to share this year's offering of Angus, Simmental, and SimAngus bulls. This sale represents months—really years—of hard work, careful selection, and pride in what we raise. These bulls are the result of a family effort and a shared commitment to producing cattle that work in real-world conditions. For the first time we are offering 5 bred females. This is an opportunity to invest in a select set of donor-quality females from the heart of our program.

At Rossman Farms Genetics every mating decision, every feeding choice, and every bull that makes this sale offering reflects our belief in doing things right. We take pride in producing cattle that are fertile, functional, structurally sound, and built to add value to your operation, whether they're working on cows, producing replacement females, or adding pounds and carcass value to feeder calves.

With today's historically low cow numbers and strong demand for quality calves, we believe the importance of the right bull has never been greater. The bulls in this offering are designed to help you move your program forward—combining soundness, calving ease, maternal strength, growth, and carcass merit in a balanced, practical package.

Most importantly, we value the relationships behind the cattle. Many of you are not just customers, but neighbors and friends, and we are honored by the trust you place in our program. We look forward to visiting with you prior to and on sale day, answering questions, and helping you find bulls that fit your goals.

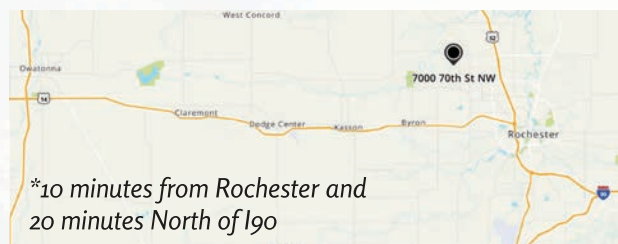

Thank you for your interest and support. We hope to see you on February 19th in Oronoco

Sincerely,

—The Rossmans

Sale Location:

7000 70th St NW, Oronoco, MN 55960

Sale Contacts:

Tony Rossman: 507-259-2174

Baldrige Isabel G336 is from the heart of the Baldrige Performance Angus herd and owned in partnership with them. Her sire, Spring Cove Reno, has been identified as a source of an unmatched balance of performance, maternal traits and end product merit. Her dam is the breed legend Isabel Y69, developed by Baldrige Performance Angus whose influence will be felt for generations of Angus genetics.

Her featured sons: Lots 9-13

The top selling bred heifer of the 2022 NILE female sale in Billings, MT, owned with Baldrige Performance Angus. Her sire, Sitz Logo 12964, has been identified as a leading source for female function and ability to breed back (Heifer Pregnancy) in a moderate framed, low birth package. Lucy 1178 descends from the famed "Lucy" cow family developed by Clarence VanDyke from Montana's Gallatin Valley.

Her featured sons: Lots 14-16

One of the base cows at Rossman Farms Genetics is a direct daughter of Baldrige Pratissa W165. W165 is a power cow at Baldrige Performance Angus and the dam of many sale-topping bulls, whose daughters have had a huge impact in the Baldrige Performance program.

The best part of Pratissa X41C is her powerful look, perfect design and udder when in production.

The influence of Pratissa X41C will be felt for years to come.

Her featured sons and grandsons: Lots 22, 27, 29, 32, 34, 35, 36, 44, 47, 48

MARKET DRIVERS SHAPING TODAY'S BULL SELECTION

As you evaluate this year's offering, you'll find bulls backed by proven cow families, breed-leading sires, and performance data aligned with today's marketplace. Our multi-trait genetic dashboard reflects a disciplined breeding philosophy—driving consistent, sustainable progress without chasing single-trait extremes.

LONGEVITY & STRUCTURAL SOUNDNESS

Bulls with correct feet and legs, strong maternal foundations, and balanced growth are essential to building problem-free, long-lasting cowherds.

HISTORICALLY LOW U.S. COW NUMBERS

Reduced inventories continue to strengthen demand for fertile, functional bulls that add long-term value to feeder calves and replacement females.

CARCASS MERIT PREMIUMS

Strong Choice and Prime demand keeps marbling and ribeye area at the forefront of profit-driven selection decisions.

EFFICIENCY & FEED CONVERSION

Rising input costs highlight the importance of cattle that convert feed efficiently while maintaining performance and adaptability.

DOCILITY & DISPOSITION

Calm, easy-handling cattle improve safety, reduce stress, and enhance overall herd manageability—traits that continue to gain value in modern operations.

Using Technologies to Build a Better Cow Herd and Increase Calf Value

An addition to the 2026 event schedule is an educational seminar with Dr. Mark Allan and Tony Rossman on building bulls that create profitability for all phases of the beef industry. Learn how today's leading technologies allow the seedstock provider to breed animals that have the highest probability of success for the commercial cattlemen. It all starts with building animals that are sound from the ground up, data collection, and genomic enhanced genetic evaluation. By using all the tools, Rossman Farms produces bulls and females with strong connectivity to the rest of the seedstock industry, giving them the maximum probability of creating success in the next generation. Learn how this commitment to technology additionally creates opportunities for commercial cattlemen to leverage new genomic technology for replacement heifer selection in their own herds.

Dr. Mark Allan,
Animal Geneticist

"We start with clear breeding goals, based on cattle with sound feet and structure, that are functional and appealing in their design, and dense in their build.

They must be adaptable to real world condition. Choosing the right technology for breeding decisions doesn't mean using more tools—it means using the right one. The best tools combine EPDs, genomics, pedigree, and real-world performance into one clear picture, helping you make balanced decisions rather than chasing single traits."

Tony Rossman

Sale Terms

If you can't make it to the farm, log in to DV Auction for real time bidding.

DVAuction
Broadcasting Real-Time Auctions

Guarantee

All bulls will be guaranteed for the first breeding season. If a bull is injured, a credit will be applied equal to the purchase price minus salvage value. This credit can be used immediately on a replacement bull if one is available or at a future sale. We ask that customers make us aware of issues as soon as they occur.

Free Delivery

Delivered free to surrounding states and volume purchases. We appreciate customer cooperation to complete deliveries by April 1st.

Housing

Bulls will be wintered free of charge until March 15.

Semen Testing

All bulls will have a breeding soundness evaluation prior to delivery.

Health

Bulls have been vaccinated with IBR/PI3-BVD-BRSV, 7 way clostridial and lept. Bulls have been poured and wormed with Safeguard.

Volume Discounts

3% on 3 bulls, 4% on 4 bulls and 5% on purchases of 5 or more bulls.
